Tip When cutting smaller pieces of card stock with the Movers & Shapers Windows use Dotto to keep your cardstock in place while you run it through your Big Shot

Step 1: Score your Cardstock @ 5.5" and 8.25". Line up the fold with the centre of the heart die as shown in the photo. Secure it in place with some Dotto.

Step 2: Unfold your cardstock over the heart die and line the cutting pad up with the fold as shown (The die will only cut where the cutting pad is)

Run it through your Big Shot

Step 3: Fold the short piece back leaving the ½ heart flat. Fold your card in half and use a bone folder to get a nice crease.

Step 4: Punch out a heart with the Full Heart Punch and adhere it to the front of your card.

Finish your card.
