

One Piece Movers and Shapers Box

By Jackie Topa

Make this one piece Movers and Shapers box in a few easy steps, wrap some nuggets in your favourite Designer Series paper and you have a quick gift to give this Holiday Season

Adjust the movers and shapers ornament die so the top of the ornament is 2.5" from the top edge of the opening (see photo)

Cut $\frac{1}{2}$ " off the end of the card (*the end farthest from the cut shape*).

Score $\frac{1}{2}$ " on all 4 sides of the box and make another score line $\frac{1}{2}$ " to the left of the centre score line (the one created by the die)

Snip all 4 corners as shown in the first photo. Snip the 2 sides of the centre as shown in the second photo.

Fold in the bottom edges as shown and glue with Tombow Multi Adhesive or use sticky strip. Close the lid before gluing it to make sure it fits nicely over the bottom.

Punch a hole on the score line with the slot punch.

String a ribbon through the hole in the score line and the hole made by the ornament shape. Tie the ribbon and adjust the bow to where you would like it.

Stamp your image in versamark on an overhead sheet and emboss with gold embossing powder. Attach the image to the inside of your box so the image is centred in the cut-out.
