

Stationary Box by Jackie Topa

Make my stationary box and have everything you need to send a card all in one place. This would make the perfect project for the June promo. There's a place for love notes, cards, tags, postage stamps, a pen and address book.

To the left is a photo of my stationary box with all of its contents. If you're making this project for a class I would keep your cards and tags simple. One of our Simply Scrappin' kits are ideal for this project.

Supplies

One sheet of designer series paper (*lid, address book, stamp envelope*)

One 12x12 sheet of coordinating cardstock (*box*)

Pen

Lined paper (*address book*)

Supplies to make cards, love notes and tags.

On this sample I used 8 sheets of whisper white, 1 sheet of guava and 1 sheet of DSP to make my cards and tags.

Score a piece of 12x12 neutral cardstock at 5" and 7"
Score at 3" and 9" in the other direction. *See photo below*

Cut sides to score lines. Fold these cut pieces into the centre and glue down for extra support. This will make the bottom of your card box.

Cut 1 3/4" off each side of the **top panels only**. Score the bottom 2 portions at 1" and 11" *as shown in photo below on right*

Cut a piece of neutral cardstock 8 1/2 x 4 1/4 . Score both short sides and **one** of the long sides at 1 1/4". Trim corners and apply Tombow or sticky strip to scored sections. Fold up the top of your card box and attach this piece to the box to form a holder for your cards.

Love Note & Tag Holders

Cut a piece of neutral card stock 5 1/2 x 2 and a piece 4 1/2 x 2. Score both pieces at 1/2" and 1" from each end. Apply glue to outer pieces and attach to top of card box.

Address Book

To make address book cut some lined paper into 3 1/2" x 6". I used 6 pieces but you can make your book as thick as you'd like. Cut a piece of Designer Series Paper 6 1/2" x 3 3/4"

Score at 3 1/4" and 3 3/4". Fold in half, insert your lined paper, punch 2 holes and insert brads. Glue your address book to the bottom half of your card box leaving enough room for your pen. *See finished sample*

Stamp Envelope

Cut a piece of Designer Series Paper 2" x 3". Score at 1/2" on both short sides and one long side. Trim corners, fold scored pieces under and glue down beside address book.

Pen Holder

Cut a piece of DSP or card stock 2" x 1 1/2". Wrap loosely around pen making a loop. Center your pen where you would like it to be then attach the loop to the stationary box.

Box Lid

Cut a piece of Designer Series Paper 10 1/8" x 6 1/8". Score at 2" on all sides. Trim corners and fold ends up to form lid. Embellish your lid as desired. (note: attaching a coordinating strip of cardstock around your lid will give it extra support)
