Supplies

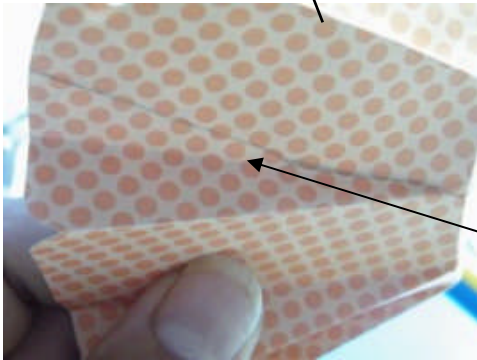

12" x 12" sheet DSP
Buttons
Baker's Twine
Crimper
White Taffeta Ribbon
Blossom Bouquet Triple Layer
Punch

1. Cut 2 strips 1-5/8 x 12" and 2 pieces 6" x 8-3/4"
2. Score the two narrow strips every 1/2" and accordion fold.
3. Cut two Blossom box pieces from the remaining card stock

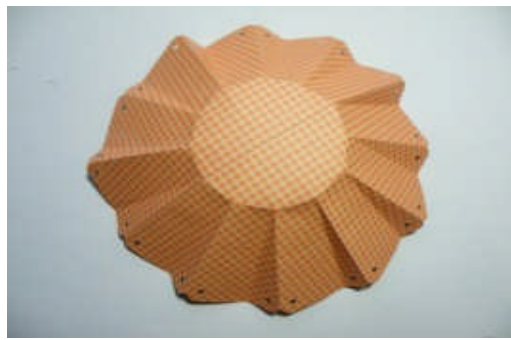

4. Fold and pinch the score lines around the bottom circle. DO NOT fold on the upper circle score lines.

5. Fold on all the mountain folds

6. Instead of folding the valley fold on the crooked score line (*shown in pencil*), use the bottom half of the score line as a guide and fold from the basket bottom to top

7. Use the crop-o-dile to punch holes in each fold.

8. Pinch the fold together and string the taffeta ribbon through the holes. Tie the ends in a bow.

9. Cut some $\frac{3}{4}$ " strips of DSP scraps and a $\frac{1}{2}$ " x 12" strip of card stock. Crimp the DSP and glue it to the card stock to form the handle. You can overlap the DSP.

Leave a bit of extra DSP sticking out beyond the card stock to use for attaching your handle.

10. Once both sides of the card stock are covered, put some glue on the bottom of the ends and attach the handle to the inside of the basket. Make a tag if desired. The small Stampin' Up cello bags fit nicely in the basket.
