

Metal Valentine

1. Glue the foil to the 4- $\frac{3}{4}$ " x 3- $\frac{3}{4}$ " piece of card stock and wrap the excess foil around the back as shown in the photos above.

2. Emboss the foil card stock with the square lattice embossing folder.

3. Punch a heart from Real Red card stock and sponge around the edges with black ink. Glue it to the foil and insert a brad into the top on one side.

4. Offset the foil on the red card stock. Use some glue or tape to secure it while you insert a brad into each corner of the foil. Offset the Real Red mat onto the Black card base. Make sure the brads don't show from the back.

5. Stamp the sentiment on the strip of Whisper White. Tear one side and sponge around the edges with Black ink. Use your bone folder to curl the card stock as shown in the photo then glue one side to the heart.

Metal Valentine Supplies and Prep List

Stamps

Filled With Love
