Black Embossing Powder
Heat Tool
Spritz Water Bottle

Card stock

11" x 4 ¼" Basic Grey
4-1/8" x 4-1/8" Basic Black
4" x 4" Grey DSP from the Neutrals Designer Series Paper Stack
4 ¼" x 1" Whisper White
2 ¾" x 2 ¾" Whisper White
Scraps of Shimmery White card stock for flowers

1. Punch one edge of the white strip with the pinking hearts border punch. Punch a hole in the DSP with the 2 ½" Circle Punch and sponge around the edges.
2. Stamp the sentiment on the 2 ¾" square and center it behind the DSP when you assemble your card. Tie a ribbon around the front flap.
3. To make the roses and leaves stamp the images with versamark on Shimmery White card stock and emboss with black embossing powder. Spritz the images with water, pick up a drop of reinker with your aqua painter,

touch it to the card stock and watch it spread. Add as much color as you'd like. When dry, cut out the images and add them to your card.
